

Lakeland's Little Learners

3K-I with Ms. Allie

March 2025

Themes

Last month we were busy discovering all about our bodies and how we are all unique. We found out that each of us has different colored eyes and hair. We learned new exercises as a class and made our own energy trail mix one day for a tasty snack. We ended our theme by exploring all about our five senses.

In March, we will be diving into Fairy Tales and Nursery Rhymes. We will be retelling many of the fairy tales we hear and design our own crown with a variety of shapes. A highlight will be when we experiment what will happen to Humpty Dumpty when he tumbles off the loft.

Spring Weather

Even though the weather is getting nicer, please continue to send a warm coat to school. It is still chilly in the morning and we can always take it off if it warms up.

March Happenings

Ms. Andrea from the Matheson Memorial Library will be visiting our classroom to share some wonderful stories and fingerplays on March 5th.

The week of March 10th, don't be surprised if some mischievous happenings occur. We will be doing St. Patrick's Day activities and leprechauns have been known to visit our classroom!

Family Connection

As the weather warms up, visit a playground and have some fun with imaginary play. Children love to pretend they are characters from a favorite story. The climber becomes a castle, underneath a bear cave. Visit a playground and let your imaginations go wild!

St. Patrick's Day
